## Getac PS236 Fully Rugged Handheld

MIL-STD 810G and IP67 Compliance  
Microsoft Windows Mobile® 6.1  
3.5G WWAN  
RS232 Serial Port, USB OTG & SDIO / SDHC Slot  
Field Swappable Long Life Li-Ion Battery  
Embedded High Sensitivity GPS Receiver  
3 Megapixel Pixels Auto-focus Camera

### The Getac PS236 Fully Rugged Handheld

The Getac PS236 is the first fully rugged handheld built to meet MIL-STD 810G with high-speed HSDPA wireless networking\*. The PS236 features a high sensitivity GPS receiver, E-Compass and altimeter, making it perfect for GIS applications and a built-in three megapixel auto-focus camera has been neatly integrated to provide an all-in-one solution.

The PS236 includes 4GB of embedded memory and can be expanded to a total of 20GB of memory using the external SDHC card\*\* The PS236 can be customized with either the standard

numeric keypad or a PDA keypad depending on the application and need. The PS236 is preinstalled with Windows® Mobile 6.1 software for quick access to email, the Internet, texting and other means of mobile communications.

Weighing a mere 18 ounces, the device can operate at full capacity for up to 12-hours on a fully-charged battery and is MIL-STD 810G compliant and IP67 compliant to operate without failure under the most extreme weather conditions, environments and everyday abuse associated with its user base.

Specification subject to change without notice. Battery performance will vary based on software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. As with all batteries, maximum capacity decreases with time and use and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings. Battery life may be reduced in subzero applications.

\* For storage, 1GB = 1 billion bytes; actual formatted capacity less.

\*\* Weight is without 3G module. Weight varies by configuration and manufacturing process.
